

SCANEXT

A3 GOLD FOIL STAMPING MACHINE

SCANEXT HS389

Main Technical Specifications

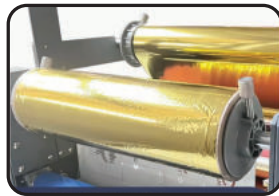

Model	Scanext HS389
Width	375mm
Rubber Roller Diameter	76mm
Coating Velocity	0-6m per minute
Coating Temperature	0-140°C
Membrane Core Specifications	1 Inch / 3 Inch
Packaging Size	68 x 62 x 49cm
Packagig Method	Carton
Working Mode	Cold Mounting, Single Sided, Double Sided Lamintaion, Hot Stamping
Total Power	1600w
Voltage	220V / 50HZ~110V/60HZ
Package Weight	56kg

*Specification do as present one, if there is a change without notice.

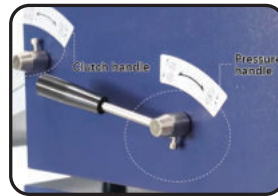

Features / Advantages

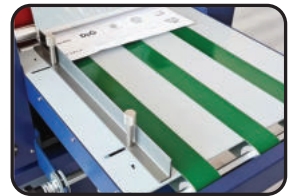

Independent Temperature Control

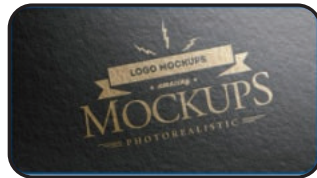

Automatic Winding

Two Handle Design

Conveyor Feed

Bronzing Effect Display

Automatic Collection of Bronzing Finished Products

Effective Display
